PROJECT

Title: AI-TALENT ASSESMENT SYSTEM FOR HOLISTIC RESUME ANALYSIS, DYNAMIC INTERVIEWING

Description:

AI-Talent Assessment System for Holistic Resume Analysis & Dynamic Interviewing is an AI-powered recruitment platform that uses NLP and Machine Learning to analyze resumes and automate candidate evaluation. Candidates upload resumes through a web interface, where a Python backend parses and extracts key details like skills, education, and experience, storing them securely in a database. The system performs skill matching, sentiment analysis, and generates adaptive interview questions. It reduces manual screening effort, minimizes bias, and enables faster, data-driven hiring decisions.

CERTIFICATIONS

Cloud Virtual Internship Certification
